

Wider ministry updates

Midyear ministry update

August 2025 · January–July review

Learning together

The midyear update described 33 Mobile Bible School students completing seven courses by the end of July. Pastor Pius reflected on learning to prepare sermons through the teaching and through fellow pastors.

Churches growing and serving

Five new churches were listed for January–May: Kasambya Town Church, Ijuangoma, Mawujjo, Kabowa and Kyamityitye. Conferences, youth ministry and outreach also brought local leaders together. The report included the late-July open-air outreach at Kyampitsi.

A wider field of ministry

The update reported permission to serve eleven regional prisons, alongside ongoing support for pastors and congregations. Pray for the leaders applying their training as they teach, serve and encourage their communities.
