

Pastor Joseph's coffee garden

Testimony shared in October 2026 · Kakindu Community Church

Pastor Joseph in the coffee garden, from his testimony video.

Pastor Joseph had begun to doubt that he could still do something to earn an income. “I had lost hope before,” he recalled.

Pastor Sylver and Naphtali took him to business training in Rakai, where he learned about growing coffee. There he met Pastor Fred. “He spoke words that encouraged me.”

Joseph now tends a coffee garden he describes as one year and four months old. He thanks those who support PSM financially and make it possible for Sylver and Naphtali to encourage pastors through practical training.

Joseph serves Kakindu Community Church and is also a Mobile Bible School student in 2026. Naphtali reports that he has started a school as well.

Please pray for Joseph as he serves his church, continues his studies and tends the coffee garden.

A gift of a rooster for Naphtali during the visit.
